# Our Services Page

We Offer Effective Solutions with Real Results

## Staffing Solutions

Your team can make or break your business, and that's why it's crucial to find the right hires. We provide you with the talent to staff your IT & software development teams.

We source, screen, and match high-quality employees with businesses looking to expand their staff. You can rely on Vertex Consults to network and connect you with a selection of interested applicants. We'll find you employees that bring new ideas and skills to your business, helping you grow in the long run.

## Software Development

Our software development services focus on creating an online presence that will bring in more clients. Our development skills are used for websites, social media, apps, and marketing. We have skills in custom software development and mobile application development. Along with development, we also offer design services to create eye-catching, appealing pages.

Our developers provide quality assurance and testing, as well as maintenance and support. We ensure that your software is kept running for years while staying up-to-date with trends and updates.

## Cloud Services

Similar to our software development solutions, our cloud services focus on the technology side of your business. We provide cloud migration, optimization, and management to keep your processes and information secure and accessible. This can improve your lifecycle process and create higher efficiency in your projects.

Our technological experts will work with you one-on-one in consulting sessions to help you learn how to use the cloud and how to maintain cloud management in the future. We provide public, private, hybrid, and multi-cloud consulting services.

## Project Management

We provide consultancy support to execute projects from medium to complex projects. We offer human resource consultancy and support services to help your project from initiation to closeout. As a vertex consults client, you get advice and recommendations regarding project management and support to businesses that need it.

Our consultants possess the relevant skills and knowledge to help guide businesses to make the right decisions throughout the project lifecycle. We use different tools and techniques to ensure that projects are executed properly and efficiently.

## Property Management

We are a NYC property management firm assisting homeowners and landlords manage their properties in Brooklyn, Queens & Manhattan. We handle all aspects of managing properties from maintenance requests, cleaning, communication with tenants, rent collection, and housing actions.

Whether you are looking for someone to handle a small condo unit or a multi-family property our property managers are here to assist our owners maximize their revenue potential and achieve expectations.

## Schedule Your Appointment with Us Today

Ready to take the first step in improving your business? Schedule an appointment with Vertex Consults today so we can get started. We'll start by discussing your vision, requirements, and planning before we move to ongoing consulting appointments. Watch your business grow with Vertex Consults!
